

2018 REPORT

At the end of 2018, The Brown Bagging for Calgary's Kids community was feeding more than 4,000 kids each day. Every day, each kid received a healthy lunch made at BB4CK's central kitchen or at one of the community groups that operate around the city.

The Calgary community gave money, time, donated food and so much more as a way of taking meaningful action to feed hungry kids.

By the Numbers:

4,457

kids impacted/day by end of 2018

650

volunteers/week

226

schools cared for

1,428

donors who gave to feed and care for kids

My favourite part of BB4CK is being part of a group that is passionate about children, helping them to succeed. It feels so good to be able to help in any way that also helps kids

2018 REPORT

100% of BB4CK's budget is donated by you, people who care about kids and want them to have the healthy lunch that they need to be successful. We're grateful for your support. We maximize every dollar of your investment to not only feed hungry kids today, but also to end childhood hunger for good in Calgary.

Finances:

We were very happy to have this supply of food to feed the children, whether it was a lunch or just a snack. It made that child feel comfortable enough to come and ask us for something extra. It sure helped them to focus and be more alert in the afternoon. Some children blossomed and learned more because they felt full and focused.
